Sub: Reference Letter for Ms. Sushree Sneha Biswal

It gives me immense pleasure to recommend Ms. Sushree Sneha Biswal for a faculty position at KIIT University. She is a final year Master of Science student in Computer Science and Information Security at the Indian Institute of Information Technology and Management-Kerala (IIITMK-K). I have known her since July 2014 as my own student.

I have taught several theory and lab courses in Information Security and Mathematics to Ms. Biswal. Her performance in all the course were excellent. She has been an excellent student and always actively participated in the class room discussions. She used to come up with innovative solutions to the problems posed to the class.

She had successfully completed two mini projects in 'Cyber Security' under my guidance and is currently carrying out her final semester major project on 'Penetration Testing' under my supervision as an internship candidate at a major IT company in Technopark. She has excelled in all these project works.

At all times, I found her to be passionate, hard-working, conscientious, honest, and courteous. Ms. Biswal has actively participated in several national and international conferences held here. I am glad to acknowledge that she has solid understanding of present day Computer Science and Information Security technologies and is capable of applying different domain knowledge towards quality in research. She is a good team worker and can collaborate with multicultural and multidisciplinary people. She is one of the most reliable students who always displayed commitment in her coursework, projects and seminars.

Having observed Ms. Biswal's professional development over the past two years, I can state with confidence that she is a responsible and motivated person having a high degree of integrity. She has got good presentation and teaching skills and I am sure that she can excel in a teaching profession. Ms. Biswal aspires to pursue her interest in academics and I feel this is an appropriate choice for her.

In short, I am sure Ms. Biswal will be able to make outstanding contributions to your institution. I highly recommend her for a faculty position at your institution and wish her all the best.

Sincerely,

Dr. Tony Thomas

Asst. Professor & Course Coordinator

Indian Institute of Information Technology and Management- Kerala
